2026 Intro to Revit Core Class

Instructor: Stephen Lotto

Course Description: this course will explore the uses of Autodesk Revit MEP software as a design, collaboration, coordination, communication & fabrication tool for the construction industry. Students will learn hands-on how to utilize a design model for coordination & further develop it into installation drawings.

Mandatory Class Requirements:

- Complete attached class application and return to Local 777 JATC
- Students need to have a personal computer running Windows 11 & capable of running Autodesk Revit. (https://www.autodesk.com/support/technical/article/caas/sfdcarticles/sfdcarticles/System-requirements-for-Revit-2025-products.html)
- Students are expected to be proficient with Windows 11, including basic system navigation, creating folders, downloading files from the Internet & transferring files from the computer to a USB flash drive.
